OBJECTIVE

Seeking a challenging position in a reputed organization where I can learn new skills, expand my knowledge, and leverage my learnings.

EXPERIENCE

WEB DEVELOPER INTERN

FEB 2022-MARCH 2022

Organization: Oasis Infobyte
In this internship, I have developed features to enhance user experience.
I have built reusable code for future use.
Optimised web pages for maximum speed and scalability.

WEB DEVELOPMENT INTERN

March 2021-April 2022

Organization: LetsGrowMore
In this internship, I created Covid Awareness Website for general purpose awareness campaign.
Keep the projects bug-free

EDUCATION

BACHELOR OF ENGINEERING IN INFORMATION TECHNOLOGY

SINHGAD INSTITUTE OF TECHNOLOGY AND SCIENCES (9.12 CGPA)
2023

Graduated with distinction, excelling in coursework, impactful projects during my Bachelor of Engineering in Information Technology.

HSC (SCIENCE)

Dnyandeep Vidyamandir Bhadgaon Khed Ratnagiri (79.54)
2019

SSC

Dnyandeep Vidyamandir Bhadgaon Khed Ratnagiri (98.20)
2017

PROJECTS

1) Procto - The Online Proctoring Proctor(Final Year Project):

Procto is online proctoring tool that ensures cheating free exams. It has features like Mobile Phone, Book, Laptop, Multiple People Detection. It also monitors key press detection, tab switch detection.

Tech Stack - ReactJs, Redux, Material-UI, NodeJs, ExpressJs, PassportJs

Database - MongoDB Atlas, Deep Learning Model - CocoSSD Model for object detection.

2) The Simon Game:

In this project we built a game which repeats the pattern shown by the program. With each round a new step is added to the pattern which increases difficulty of the game.

Tech Stack - HTML, CSS, JQUERY

3) E-Kaksha:

In this project we developed student study portal to help student to submit their college assignments.

It has various sections such as To-do List, Books and Dictionary.

Tech Stack - HTML, CSS, JS, PYTHON, WEBAPI, MYSQL

SKILLS

- Java
- NodeJs
- Github
- HTML, CSS
- MySQL
- C
- Javascript
- Basic React
- Problem Solving

PERSONAL
